**Our “Balls” project is rolling. You can often catch us exploring with our hands through various activities in the classroom, as well as outdoors. Also, notice there are new faces as students come in and do their labs and observations daily. We love sharing these experiences with you and all our friends! There are so many awesome opportunities to teach children how to care and grow through giving, recognizing, and displaying children’s work, etc. Please make sure your child has extra clothes daily for this project as we will be participating in lots of hands on experiences with a variety of sensory activities. Please be prepared for the weather changing by exchanging extra winter clothes and bringing jackets daily. Don’t forget to check your paper cubby daily for important news and information. If you would like to volunteer during any activities please see Christian. We would love for you to join us!**

### **Important Dates to Remember:**

- November 3rd: Dental Screenings 9:30 am
