

November 2017

Infant/
Toddler 25

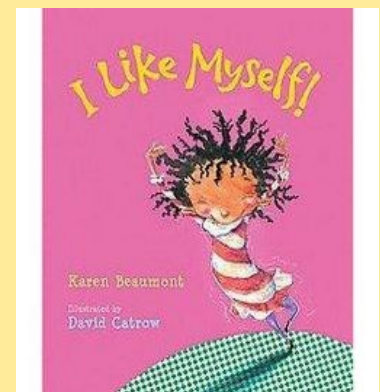

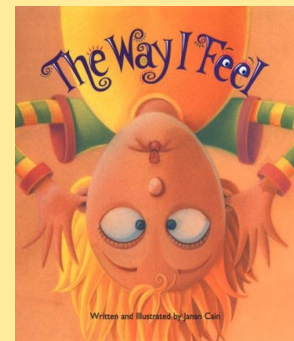

What's Happening

This month our class will endure a lot of change. With change comes several emotions. We will be talking about how we feel in our next project.

We will discuss different feelings, read stories, and sing songs to help the children identify with these transitions. Talk to your child about the changes ahead to help them through this process.

As our temperature begins to change, please be sure to provide weather appropriate clothing and a change of clothing that is appropriate for the temperature that day as well.
