Begin by powering on VEOS unit, which can be found behind the TV on the right side. Press the power button and watch for blue lights around the button indicating the unit is booting up. Allow about a minute before proceeding to the next step.

You may now power up the TV by locating the Sony remote and pressing the green power button. It will take approximately one minute for the TV to complete the initialization process for use.
Using the input button and navigation arrows select the VEOS input on the TV screen.
